Isabella Qu

Seattle, WA | 206-468-0712 | yuegequ@uw.edu | linkedin.com/in/yue-ge-qu

EDUCATION

University of Washington Seattle, WA

B.S. ***Informatics*** | *Minor in* ***Applied Mathematics*** | **GPA: 3.70** *Expected June 2029*

EXPERIENCE

Co.Wishes Feb 2023 – September 2025

Head *Toronto, ON*

- Led recruiting and training volunteers and set direction across multiple ongoing projects
- Helped design and build the website for our donation card program, working across content and layout
- Built partnerships with local organizations and ran outreach to grow community involvement in our programs

Art City Community Partnership Sept 2022 – Mar 2025

Lead *Toronto, ON*

- Led coordination with school administrators and other leads to keep sessions aligned with institutional goals
- Ran arts enrichment programs with local schools for kids aged 9–12, adapting curriculum to what worked for each group

PROJECTS

Studdy Buddy | *User Research, Wireframing, Figma, Miro*

- Interviewed stakeholders using think-aloud protocols, ran affinity mapping to surface key pain points
- Ran a Rose, Bud, Thorn session to prioritize feature ideas, built personas, user journeys, and low-fidelity wireframes
- Built Figma prototypes and tested them with students, then made sign-up steps simpler from feedback

Lullaboo | *Arduino, Figma, Sewing, UI/UX Design*

- Designed an Arduino companion that uses touch gestures (eye-mask lower, nose press) to start sleep timers, dream recording, and track body temperature to estimate sleep quality
- Mapped an 8-step user journey and built Figma wireframes for the companion app, including a dream diary, AI-generated dream film/image feature, and personalized sleep suggestions

PackiPals | *Figma, Procreate, Physical Prototype*

- Framed a How Might We statement around takeout food losing heat, ran two rounds of paper-prototyped packaging experiments
- Designed the final origami-style fold packaging and logo, tested the prototype with real customers in a grocery store
- Researched how heat escapes takeout containers, comparing insulating materials to find the best one for the prototype

SKILLS

Languages: Python, Java, R, HTML/CSS

Developer Tools: GitHub, Jupyter, RStudio, Arduino, Microsoft Office Suite

UI/UX Design: Figma, low- & high-fidelity wireframing, prototyping, user flows, information architecture, design iteration, Miro, Procreate

User Research: User interviews, think-aloud protocols, usability testing, Rose/Bud/Thorn, affinity mapping, personas, surveys

Spoken Language: English, Mandarin, French

AWARDS & PUBLICATIONS

Published research, *Journal of Student Research*, Vol. 13 Issue 2

Artwork published in *Young Voices Magazine* (2024), “My Head”
